90 satellite days in window · gauge dots share the map color scale — a dot that vanishes means satellite and gauge agree

A map of the coffee triangle in Colombia, showing the regions of Caribe, Antioquia, Caldas, Valle, Centro, and Oriente. The map is color-coded: Caribe is blue, Antioquia is green, Caldas is purple, Valle is teal, Centro is red, and Oriente is orange. The regions are outlined with corresponding colored lines. The map also shows the Pacific Ocean to the west and the Caribbean Sea to the north.

El Niño conditions

MODEL SKILL

r = 0.59

state model, 23-yr out-of-sample

Forecast = fitted persistence (dispatch is storage-buffered) blended with the inflow/storage/ENSO state model, driven member-by-member by the same AIFS+IFS rain ensemble as the basin pages. Bands widen by the blend's measured residual uncertainty at each lead.
